It is time you, our government start letting our society operate as it was intended by the signers of the Constitution.

You now need to stop finding ways to penalize and tax business like Microsoft because they were making money.

The Justice Department has stepped over the line by trying to make laws that the only reason is to add money to the coffers.

To honestly be able to do that, it needs to be able to show us the population where every dollar taxed went. It could very easily reduce itself by two percent a year for the next ten years and, still give the same services given now. What is being said is that the government is way out of whack and, it is the corrupt entity here.
